## ABOUT

DEATH # DISCO is the name of an internationally well reputed Berlin based clubnight dealing with exciting contemporary acts from the genres Post Punk, Cold Wave, Minimal Synth, Shoegaze and Noise Pop. It was founded in June 2010 by long time creative DJ- and promoter couple Ian P. Christ (Remembrance Daze, Hidden Treasure Music) and NecroPhil (Remembrance Daze, Aufnahme + Wiedergabe) in order to support new music of the styles mentioned above.

DEATH # DISCO is taking place (at least) once a month at the King Kong Klub in Berlin-Mitte with regular one-off-event specials in different selected locations. The main aim of the clubnight is to feature live gigs by new acts on each edition, accomplished by adequate DJ-sets by DJs from everywhere in the world.

Most acts that played DEATH # DISCO during the first year of it's existence gave their Germany or Berlin stage debut at this very night. That includes artists like FRANK (JUST FRANK) (US), NINE CIRCLES (NL), SOVIET SOVIET (IT), CEREMONY (US), BOOTBLACKS (US), PRINCIPE VALIENTE (SE), NINA BELIEF (US) and UN CADAVRE (UK).

Motivated by the so far overwhelming feedback of their concept and in order to celebrate the first anniversary of their very own baby, Ian P. Christ and NecroPhil decided to produce a special present for both, their committed audience and the artists that mainly embossed the face of the clubnight: The first official DEATH # DISCO compilation!

Limited to 500 individually numbered copies, this CD features 21 tracks by most acts that played DEATH # DISCO the first year with a total duration of more than 79 minutes. 15 tracks will appear here for the first time on CD, 11 of them are previously unreleased tracks or exclusive versions at all.

But DEATH # DISCO's first compilation is much more than just an anniversary celebration statement of a certain clubnight. It's nothing less than a yet incomplete reflection of a more than lively international scene of modern Cold Wave, Post Punk and otherwise associated dark underground music with an enormous potential. The perfect access to a world of rough and exciting new music beyond the "independent mainstream".

The first copies of the CD will be handed out for free to every guest of the official record release night on 17. June 2011 at the King Kong Klub, the remaining copies will be distributed through the DEATH # DISCO website ([www.death-disco](http://www.death-disco)) and selected mailorders all over the world for a low budget price.

This is for you. Play it loud and enjoy!
